WORK EXPERIENCE

Front End Developer
Delta India

06/2022 - Present

What i have done?

- Developed and maintained reusable and modular React components that can be easily integrated into different parts of the application. Ensure consistency and scalability of components across the application.
- Utilize state management libraries like Redux or context API to efficiently manage the state of the application, enabling seamless data flow and synchronization between components.
- Implemented client-side routing using React Router within a single-page app.
- Optimize performance using techniques like lazy loading and code splitting.
- Troubleshoot and debug complex issues to maintain smooth application functionality.
- Worked with Tailwind CSS and responsive UI design with CSS.

EDUCATION

Bachelor of Computer Applications
T John Institute of Technology

03/2018 - 10/2021

Senior Secondary (XII)
Manas International School

03/2016 - 05/2018

CERTIFICATIONS

React.js course by Akshay Saini

This certification signifies my mastery of React.js, including in-depth knowledge of its core concepts and practical application. The course covered essential topics in building modern web applications using React's component-based architecture and best practices

Junior Security Practitioner by Defronix

Acquired proficiency in networking fundamentals, understanding protocols, encryption, and secure communication.
